

WHAT IS A DoD 5220.22-M hard drive wipe?

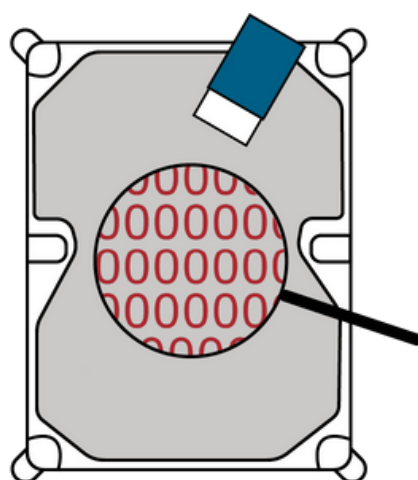

Also known as “DoD Standard” is a software-based data sanitization method done by **overwriting** existing data

Prevents nearly **all** software-based recovery tools from **listing** data and information

THREE OVERWRITE PASSES

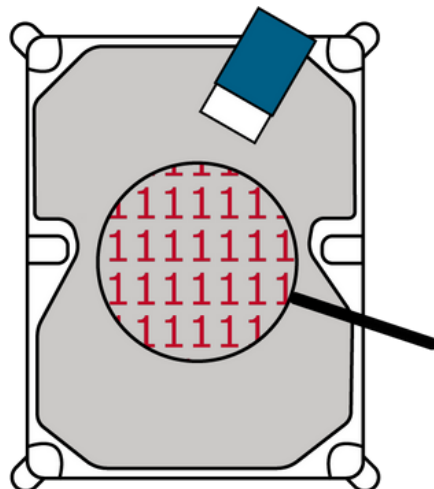

PASS ONE

Overwrite hard drive with zeros

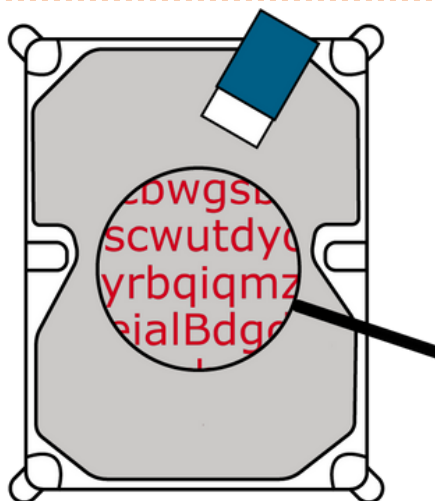

PASS TWO

Overwrite hard drive with ones

PASS THREE

Overwrite hard drive with random data

***meets U.S. Department of Defense standards**

Hard drives will be physically destroyed upon completion: Evergreen Environmental
(PremierePC's local partner)

Thank you!
