SAN JOAQUIN CHEMICALS, INC.

... "water is our profession"

SINCE 1955

WATER CONSULTANTS • SYSTEMS ENGINEERING • MANUFACTURING CHEMISTS

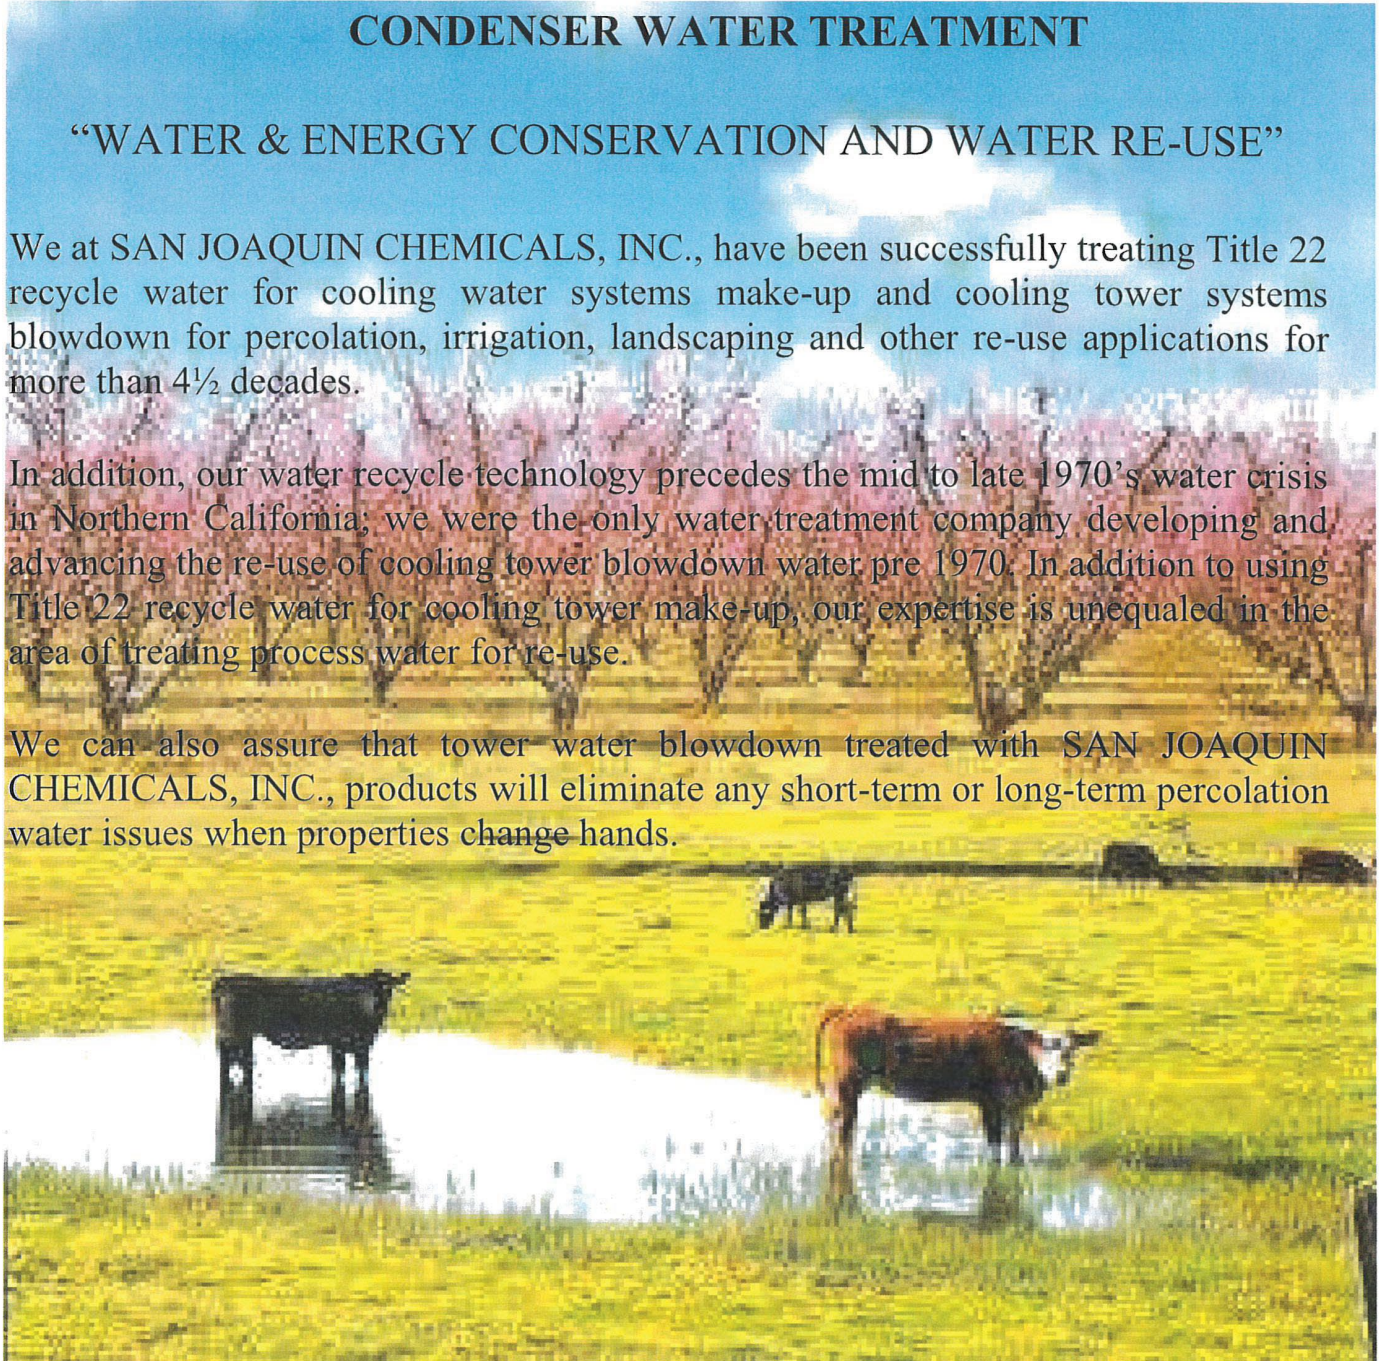

CONDENSER WATER TREATMENT

"WATER & ENERGY CONSERVATION AND WATER RE-USE"

We at SAN JOAQUIN CHEMICALS, INC., have been successfully treating Title 22 recycle water for cooling water systems make-up and cooling tower systems blowdown for percolation, irrigation, landscaping and other re-use applications for more than 4½ decades.

In addition, our water recycle technology precedes the mid to late 1970's water crisis in Northern California; we were the only water treatment company developing and advancing the re-use of cooling tower blowdown water pre 1970. In addition to using Title 22 recycle water for cooling tower make-up, our expertise is unequalled in the area of treating process water for re-use.

We can also assure that tower water blowdown treated with SAN JOAQUIN CHEMICALS, INC., products will eliminate any short-term or long-term percolation water issues when properties change hands.

BONADELLE
NEIGHBORHOODS

BUILDING VALUE FOR
Generations

Homes built by Bonadelle Neighborhoods include unique exterior elevations and custom quality features standard

For more than 75 years, the Bonadelle family has helped shape the future of the greater Fresno area by offering new homes in sought-after locations within award-winning school districts that make families proud to say, "Home Sweet Home!" As the Valley's premier local homebuilder, superb craftsmanship and exceptional attention to detail are keys to building quality, affordable, ecologically friendly homes with luxurious features that other homebuilders would consider upgrades. Your next home – a home built by Bonadelle Neighborhoods – will be a home built to be uniquely yours. We invite you to visit us and see why!
